EDUCATION

B.S. in Computer Science/Mathematics Minor, Expected 12/2026

Pittsburg State University - Pittsburg, KS

- Honoree of All A Scholastics: 09/2023 - Present
- Computer Science Club President: 09/2025 - Present

PROFESSIONAL SUMMARY

Computer Science and Mathematics student with experience building reusable frontend components using Handlebars, Tailwind CSS, and component driven design systems. Well-versed in leveraging AI assisted development workflows and collaborating through CI/CD pipelines to rapidly iterate, refine, and deliver production ready UI components. Grounded further in data processing and backend system design fundamentals.

EXPERIENCE

Contract Frontend Developer, 03/2026 - Present

LimeLight Marketing – Pittsburg, KS

- Built reusable UI components within a Fractal design system using Handlebars templates and Tailwind CSS.
- Leveraged AI assisted development tools to accelerate component creation, iteration, and refinement while maintaining code quality and consistency.
- Worked within company CI/CD pipelines to submit components for review, respond to revision feedback, and ensure production readiness.
- Translated design and content requirements into modular, scalable frontend components, improving development efficiency and consistency across projects.

Data Science Intern, 04/2025 - 06/2025

Rooted Ag – Fort Scott, KS

- Built scalable Python/Pandas scripts to clean and format contact datasets.
- Standardized and restructured the Pipedrive CRM database to improve usability, enabling more effective segmentation and driving sales through targeted email campaigns.
- Developed classification logic and automated labeling rules for contact categorization, supporting efficient customer follow-up processes and improving retention efforts.

PROJECTS

- **Pitt State Book Buyback**: 05/2026 - Built a web app (Flask) allowing Pitt State students to buy/sell books through a campus only network.
- **Sales Prediction RNN**: 12/2025 - Built a Recurrent Neural Network (Tensorflow/Python) to predict future company order quantities.
- **Callsign Brewing App**: 10/2025 - Created mobile app (Dart/Flutter) for small business brewery operations.
